

EXPOSED AGGREGATE

Exposed Aggregate, also known as Decorative Concrete, is when the stone that is used in the concrete mix is exposed by washing off the top layer after drying. Depending on the look and feel you are after you can choose between a heavy or light exposure. A heavier exposure will give a good a non-slip surface, a lighter exposure will give a smoother finish, ideal for walking on barefoot. Perfect for driveways, pathways, outdoor entertaining areas and pool surrounds. We offer our own exclusive range of mixes or can customise a design incorporating any colour or stone of your choice. Give your concrete a stylish look and increase the value of your property at an affordable price.

Exposed Aggregate Mixes

We can also customize your mix to suit your needs!

Please note: These mixes are produced from naturally mined stone so colours may vary slightly to those shown above.

Newport Premix Concrete & Garden Supplies is a family owned business, supplying everything for your outdoor needs all in one location. Our friendly team of experienced sales staff are available to offer full advice on all your concreting, building and gardening needs. Whether doing some work on the back yard, total re-landscaping, driveways, patios, pools, or building a house no job is too big or too small – we do them all! Being an independent company we have the unique opportunity of offering great quality products at affordable prices. We stock an extensive range of building and garden products and deliver to all areas (delivery charges apply). Pre-mixed concrete available in Mini or Maxi Trucks, specialising in our very own Exposed Aggregate mixes, we have an extensive range of mixes to choose from to suit any location.

Our pre mixed concrete:

Available in Mini or Maxi loads 0.4 cubic meters – 7.6 cubic meters, 15mpa – 60mpa. The concrete is made from high quality locally sourced materials, ensuring an excellent quality product at low prices. All our concrete is regularly tested by a local independent company which guarantees Australian Standards quality is strictly met and constantly monitored.
